

Getting Started with 247Toolset

Resource Coalitions

Note:

The graphics used to demonstrate Resource Coalitions are unique to the portals for this explanation, but the steps are exactly the same for every portal.

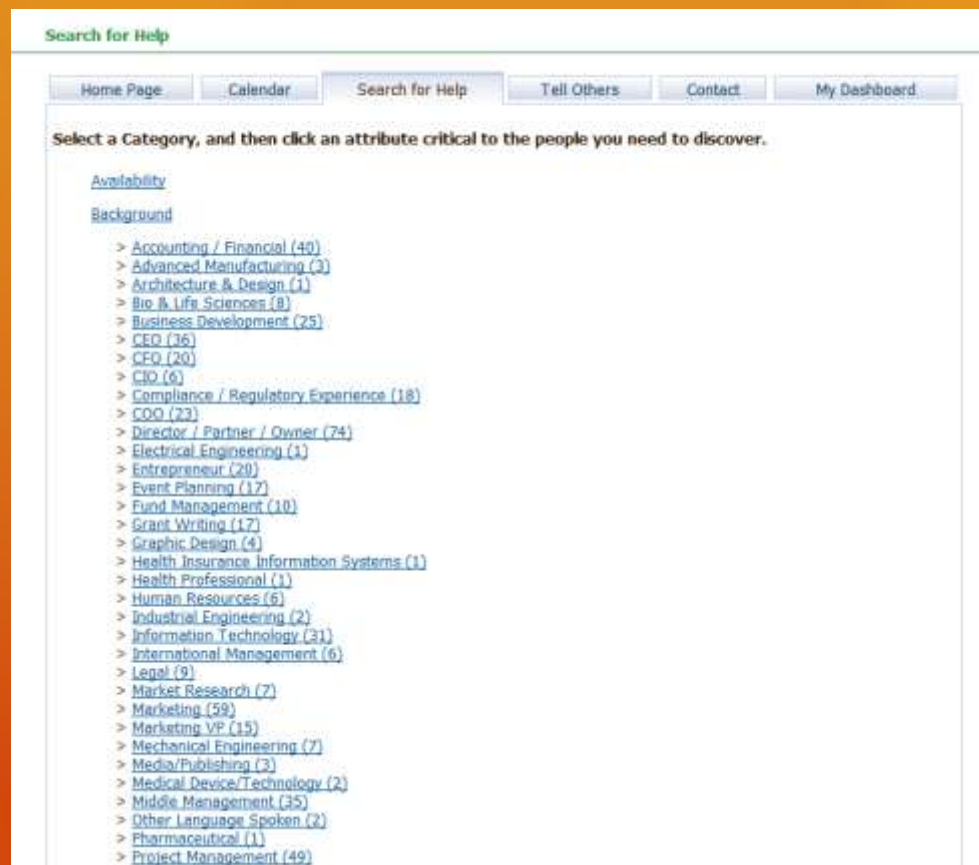

Resource Coalitions

Often, similar organizations can benefit when pooling resources together. 247Toolset allows for that by creating what we call a resource coalition. Each organization has its own door, so to speak, via its 247Toolset portal, but the resources all go to the same room.

Resource Coalitions

After your resources create their profiles, as an admin you can search for the appropriate resource. With a Resource Coalition, the totals reflect the count across all members of the coalition.

A screenshot of a web application's search results page. The page is titled 'Search Results' and has a navigation bar with buttons for 'Home Page', 'Calendar', 'Search for Help', 'Tell Others', 'Contact', and 'My Dashboard'. On the left side, there is a 'Refine your results by:' section with several dropdown menus for 'Availability', 'Background', 'Capacity', 'Certification', 'Desired Position', 'Education', 'Entrepreneurial Experience', 'Industry', and 'Preferred Company'. Below this is a 'Start a New Search' link. The main content area shows search results for 'Accounting / Financial'. It includes a 'Search Terms' box with '(Remove)' and links for 'Save/Subscribe to this Search', 'View Contact List', and 'View These Results in a Comparison Chart'. There are three search results listed, each with a checkbox, a name, a brief description, and a 'View Profile' button. The first result is for 'Select All 40 People' and has a small icon next to it. The second result is for 'Regulatory, Inc.' and has a small icon next to it. The third result is for 'Marketing, Inc.' and has a small icon next to it. The icons are small, square, and contain a stylized 'S' or similar symbol.

Each resource appears in the list with the icon/logo that represents the portal through which they came.
